LENA'S STORY

“My daughter, Lena, loves your book. We have several books about moving (we are a military family so we do this often). Your book is the one that really showcased the beautiful experience of moving and rang true with our elementary school age daughter.

On her last day of her previous school, we brought a copy of the book to read to her class and donate to the class library. We also gave her classmates seed packets of forget-me-nots.

We’ve purchased this book for other military friends who are moving and even donated a copy to her new school where we are now. It’s an international school and I think it will be particularly helpful as there are always new students arriving and departing.

At Lena’s new school, for “Dress as your favorite book character day,” she wanted to be the tree from Beloved and the Pepper Tree, as you see in this picture.

Thank you for your interest and for creating such beautiful story. ”

~ Lena’s grateful Mom and Dad
